Math Textbooks For Public Viewing

Elementary schools throughout the State of Texas will be adopting new mathematics textbooks for the 2008-2009 school year. A committee of teachers and parents from each campus are in the process of examining a variety of mathematics textbooks that are being considered for use in our schools. This is an important decision as textbooks are usually used by students for 7-10 years. The committee plans to make a textbook decision by the end of February.

The committee would like to consider input from parents and community members. **The textbooks from various publishers will be on display on Tuesday, February 12th from 6-7:30 p.m. in the BTE Library.** Forms will be available for interested parents and community members to provide their input. Please put this important date on your calendar
