

## Cool Words: Seasons 2<sup>nd</sup> -4<sup>th</sup>

1. Launch ImageBlender

2. Select  and change the selections to approximately match the size of a piece of paper (8.5 x 11).

3. Open or paint a picture for Winter to use to fill your text. Choose the Layer from Pics4Learning if you do not have a picture available.

4. Click on the  Text Tool and Change the Font 96 pixels and Arial Black. Resize the textbox. Type the word "WINTER."

5. Click and drag the text object to the place you want it over the picture

6. Click the  button. The picture will become the fill for the text, and the picture layer will be deleted.

7. Click and drag the orange fill control to move the picture in the text.

8. Repeat procedures to add the rest of the seasons.

9. Add pictures of the seasons or descriptive text boxes to complete your picture. Click on the Effects tab, open the Distort folder and choose Cool Edge to add an effect to your pictures.

10. Save  picture and print. .

11. Extension: Create CoolWords for vocabulary words. Brainstorm ideas for pictures that would represent vocabulary words and follow directions above to create CoolWords.
