

# The Manor Independent School District School Health Advisory Council (SHAC) is seeking parent members.

## What is SHAC?

The School Health Advisory Council (SHAC) is an advisory group composed of individuals who represent segments of the community.

Research shows that healthy children do better in school - from attendance and behavior to academics and overall performance. This council, made up of parents, community members, students, school health personnel and teaching staff, provides advice to the district in ensuring that community values and local health issues are reflected in the district's health education policies and instruction.

## The meetings will be held quarterly.

### SHAC GOAL

The goal of the MISD SHAC is to advise and to make recommendations to MISD decision-makers regarding students', staff and community needs and assets related to health knowledge and skills, regarding policies and procedures that impact student health, and regarding the health of the school environment.

If you're interested in participating on the School Health Advisory Council, please contact:
